# 2012 WMPO: Study of AZ Residents Attending

#### **Overview**

The ASU W. P. Carey School of Business in conjunction with its Center for Competitiveness and Prosperity Research and its Department of Marketing was commissioned to conduct two studies to identify (1) the economic impact of the 2012 WMPO tournament and (2) key demographic and lifestyle characteristics of Arizona residents who attended the tournament. The two distinct yet interrelated studies were conducted in parallel. However, the two reports are presented separately. This report presents key characteristics and comparisons of Arizona residents attending the 2012 WMPO. Included in this study is a descriptor to assess the level of involvement that attendees have in "purchasing decisions" of their work organizations, allowing us to create a profile of those who are their business' primary decision makers.

This resident survey was developed through discussions with leaders of the Thunderbirds organization and an analysis of a similar survey conducted in 2008. The final survey is attached at the end of this report.

The survey was administered each day of the 2012 event by Sports Business Association students from the W. P. Carey School of Business at Arizona State University. Surveyors were selected competitively and were given training and precise instructions. A sampling plan was designed and executed factoring in diverse time periods and areas to collect data. Over 500 surveys were collected for this study. Following data purification, 501 total responses were found to be complete.

Some basic observations related to the results are presented next. Then, tables and charts outlining the results are presented in five parts:

Part 1: Attendance Highlights

Part 2: Comparisons - Residents and Visitors

Part 3: Resident Information

Part 4: Comparisons - 2012 and 2008 Studies

Part 5: Profile - Top Decision Makers

### 2012 WMPO: Study of Residents

#### **Observations**

The official attendance for the WMPO 2012 was 518,262 (provided by the Thunderbirds)

Nearly 30% of those attending are visitors outside of the Valley

Over 350,000 different individuals attended including 285,000 from the Valley

44% of the residents have attended the tournament five or more times, and 92% plan to return next year

49% of the visitors attended for the first time, while 78% of the visitors plan to return next year

Over 70% of all attending have general admission tickets

Over 86% of residents come with at least one guest

Residents average 1.6 days at the tournament, and visitors average 1.9 days

73% of residents evaluate their overall experience as excellent and nearly 78% feel strongly it was a good value

Over 30% of the residents spend \$100+ each daily at the tournament, not including their ticket

Almost half of the resident attendees (44.6%) have incomes of \$100k+, nearly 1/3 are female, about 87% have college and post graduate educations,

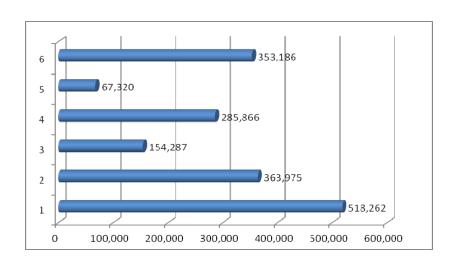

About 75% of the residents feel that Eating Out, Travel, and Healthy Lifestyles are important, while just over 60% feel that Playing Golf is important

Comparing 2012 resident attendees with those in 2008, they were more satisfied with the overall experience, more used general admission tickets, more attended the tournament five times or greater, less were first time attendees, more plan to attend in the future, and more had incomes over \$100K

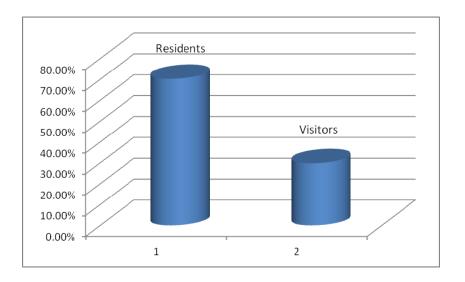

Nearly 50% of the residents have a strong influence on the purchases that their work organizations make, while 25% are the top decision maker

Part I: Attendance Highlights of the 2012 Waste Management Phoenix Open

	Attendance Characteristics
518,262	Total Attendance
363,975	Total number of residents attending the tournament
154,287	Total number of visitors attending the tournament
285,866	Total number of unique residents attending the tournament
67,320	Total number of unique visitors attending the tournament
353,186	Unique attendees

# Part V: Profile of 2012 Top Decision Makers

Top Decision Makers
25% of residents attending identified themselves as the primary influence on work organizational purchases, another 25% had a strong influence
15.4% attended the WMPO for the first time, 58% have attended five or more times
Over 90% intend to return next year
On average, they brought more than 3 guests and spent 1.75 days at the WMPO
They rated Food, Beverage, Souvenirs, Memorabilia and their Overall Experience higher than others
55% earned more than \$100,000
They rate Dining Out, Traveling, Healthy Lifestyles and Other Sports to be more important than playing golf
80% strongly agreed that the experience at the tournament was a good value
On average, they each spent \$139 a day at the tournament while others averaged \$68 in daily expenditures

# Official 2012 Waste Management Phoenix Open Survey For Residents of the Valley

#### **Do You Enjoy Attending the Tournament?**

Please help us by completing this

Official Waste Management Phoenix Open Survey

This project is conducted by the W. P. Carey School of Business at Arizona State University with the Thunderbird Organization to describe the demographics of those attending the tournament.

Your replies will be anonymous.

We will NOT ask you for your name, phone, e-mail, home address or for any other identifying information.

Please answer ALL the questions as accurately as you can, but you are welcome to refuse to answer any question or to stop the survey at any time.

If you have any questions or concerns about the study, please contact ASU Professor Michael Mokwa at 480-965-3621.

#### Thanks!
