

# QUINCY RECYCLER

SPRING | 2024

## HOUSEHOLD HAZARDOUS WASTE (HHW) COMMUNITY DROP-OFF EVENT

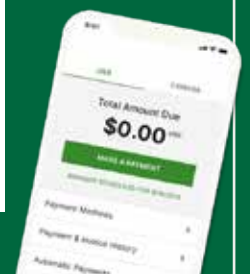

Many household waste items require special handling before they can be properly disposed. At home, a quick stroll through your garage is enough to spot several hazardous items. Although these waste materials have different properties, they share the same disposal limitations: they should not go in your trash or recycling carts. Improper disposal can lead to fires, expose our drivers to unnecessary risks, and cause waste contamination.

To encourage responsible disposal and prevent illegal dumping, WM will host a community drop-off event at the Quincy Transfer Station on Saturday, **June 1, 2024, from 9 am to 2 pm** (see reverse for the address). On that day, residents can dispose of HHW, major appliances, bulky items, and electronic waste at no additional cost (no commercial waste). **Liquids or sludges, cement, dirt, asphalt, concrete, and other hazardous or infectious waste will not be accepted.**

## TAKE CHARGE, SAVE TIME

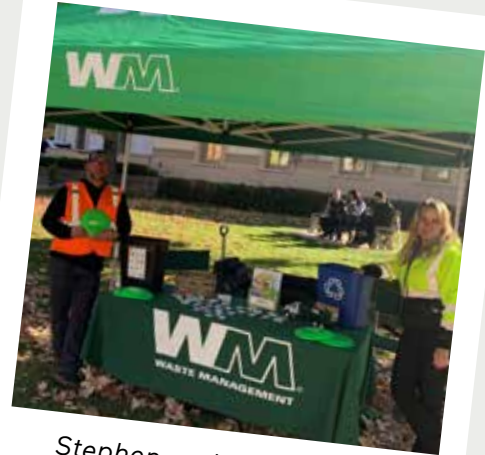

Embrace the flexibility of managing waste services at your convenience. Save time and discover the ease of WM's online features. Scan to download the My WM app or visit [wm.com/login](http://wm.com/login) to manage your waste account.

## Beyond the Curb: Meet the team behind Feather River's Waste Operation

Ensuring timely curbside waste collection involves meticulous planning, strategic thinking, and a constant problem-solving approach. While the face of our service is usually our collection drivers, there's a team of dedicated professionals working behind the scenes to piece together the entire operation. In Feather River, Stephen Shamblin, the district manager, and Lisa Lester, the route manager, play crucial roles in the waste management process. Stephen oversees performance, productivity metrics, and ensures the smooth running of our local operations, while Lisa takes charge of onboarding, developing, coaching, and mentoring drivers and helpers. Together, along with other dedicated team members, they ensure that over 3500 residents receive reliable curbside waste collection. Meet our key players!
